SKILLS

Technical Skills: React.js, React Native, JavaScript (ES6+), TypeScript, HTML5, CSS, Redux, RESTful APIs, Next.js, Tailwind CSS, SQL, Webpack, Babel, Git (GitHub/GitLab), CI/CD, NPM, React Native Debugger, Unit Testing, Xcode, Agile (Scrum), JIRA, Confluence, Figma, Postman, SASS, Code Splitting, Lazy Loading, Mobile Optimization, State Management, Responsive Design, Reusable Components, Application Development, Mobile App Development, Software Engineering Concepts, Business Applications, Modern Web Standards

Soft Skills: Problem-Solving, Collaboration, Leadership, Performance Optimization, Mentor Junior Developers

WORK EXPERIENCE

Front End Developer

Apr '25 - Present

NeoSoft | Mumbai

- **Collaborated cross-functionally** with backend, QA, and product teams to build **real-time analytics components**, reducing response latency by 30% using async API handling and optimized state management.
- **Led the implementation** of reusable component libraries and **design systems**, reducing UI inconsistencies and front-end development time by 40% across 3 major product lines.

Custom Software Engineering Analyst

Sep '21 - Feb '25

Accenture | Mumbai

- **Delivered a scalable CRM** web app for a jewelry brand using **React.js**, **Redux**, and **TypeScript**, powering personalized features like wishlist tracking and customer history for 500+ daily active users.
- **Improved app load speed by 40%** in a **React.js** app by redesigning navigation flows and eliminating unnecessary re-renders, enhancing UX and retention on mobile platforms.
- **Optimized integration of RESTful APIs**, improving backend sync and reducing screen transition time by 20%, while maintaining consistent UI behavior across platforms.
- **Reduced delivery timelines by 30%** by coordinating with PMs and designers using **Next.js**, and maintaining alignment with sprints in a fully agile setup.
- **Produced scalable design documentation** and contributed to component architecture, achieving **98% on-time delivery** and zero high-priority production bugs.

PROJECTS

Customer Management App for a Clothing Store

- Improved data accessibility and store efficiency by 35% with intuitive UI and responsive design.
- Leveraged React Native, Redux, and RESTful APIs for seamless performance across devices

Campaign Dashboard for a Marketing Client

- Designed and built a Next.js web application to store and display campaign data for a client, ensuring 100% uptime and faster data rendering.

EDUCATION

Bachelor's in Computer Engineering

Jul '17 - Jul '21

Mumbai University, LTCOE | Mumbai

Product Management

May '24 - Nov '24

Upraised
